HEATING TECHNOLOGY
CATALOG

2019

Dear Partner!

It is our distinct pleasure, that our **2019 Heating technology catalog** is ready, this year we are preparing for the season with **25 new products**.

Due to the great success, we have further **expanded our supply of spectacular fireplaces**. We are proud to introduce the *FKK 21* spectacular fireplace, which guarantees classy appearance and optimal color lighting. The specialty of our *FKK 22* fireplace is its beautiful dark brown color wood-veined coverage. Our long-awaited returning product is the *FKKI 03* **recessable spectacular fireplace**, which can be recessed into walls, but can also be **built-in** a freestanding fireplace. Only your imagination can limit the way you build-in the fireplace.

In response to market needs, we have completely renewed our range of **wall-mounted fan heaters**. The *FKF 54201* heater - with its special surface and elegant hidden screen - will satisfy customer needs. In addition, you can discover our previous success models in our assortment, that are now equipped with the latest technical content.

In line with market expectations, we have further expanded our range of **smart heaters**. The *FK 430 WIFI* and its sibling models can be used either on their feet or wall-mounted, with IPX4 protection. The appliance can be controlled from anywhere of the world, and thanks to its minimalist design, it becomes a spectacle element. Our new, **slim-designed FLOR 600** and **FLOR 1000 oil radiators** can provide a complete solution for those who want to take advantage of oil radiators but are looking for a new product with a modern look, electronic thermostat and weekly programming capability.

The safety of our clients and partners is notoriously important for our company!

So, we equipped the **classic** and well-known *FK 1* with a **security** switch, which activates automatically in case of tipping over. The new *FK 110* type **portable heater** serves your comfort and safety with electronic thermostat, timer function, switchable oscillation and built-in tip-over sensor above its **excellent quality**.

We are proud to present our **new range of industrial heaters**, featuring the most powerful model, the *FKI 90*, which can heat up the most inclement, the coldest industrial environment with 9000 W output.

We hope that our new heating products are going to meet your expectations this year as well and will help you to become more competitive and to continue our fruitful partnership!

Best regards:

Márta Ujvári
managing director

Zsolt Somogyi

FKK 21

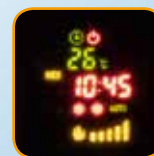

Freestanding electric fireplace

- white MDF furniture panel
- independently useable realistic flame effect and selectable color mood lighting
- 2 heating stages: 1000 W / 2000 W
- **electronic thermostat**
- **weekly program**
- **adaptive switch on control**
- automatic switch off in case of overheating
- all functions are remote-controllable
- **top blow out point**

dimensions: 98 x 80,5 x 27,5 cm

The appliance is not suitable for illuminating household rooms.

NEW

electric fireplace

2000 W

FKK 22

Freestanding electric fireplace

- dark MDF furniture panel
 - independently useable realistic LED flame effect
 - 2 heating stages: 1000 W / 2000 W
 - **electronic thermostat**
 - **weekly program**
 - **window opening detection**
 - automatic switch off in case of overheating
 - all functions are remote-controllable
 - **top blow out point**
 - dimensions: 97 x 74 x 29 cm
- The appliance is not suitable for illuminating household rooms.

2000 W

electric fireplace

FKK 18

Freestanding electric fireplace

- white MDF furniture panel
 - **adjustable brightness**, independently useable, realistic glowing wooden log and LED flame effect
 - 2 heating stages: 1000 W / 2000 W
 - **electronic thermostat**
 - **weekly program**
 - **adaptive switch on control**
 - automatic switch off in case of overheating
 - all functions are remote-controllable
 - **top blow out point**
 - dimensions: **109 x 100 x 37 cm**
 - **weight: 45 kg**
- The appliance is not suitable for illuminating household rooms.

2000 W

FKK 19

Freestanding electric fireplace

- white MDF furniture panel
 - independently useable realistic glowing coal and LED flame effect
 - 2 heating stages: 750 W / 1500 W
 - **mechanic thermostat**
 - automatic switch off in case of overheating
 - **top blow out point**
 - dimensions: 77 x 72,5 x 25 cm
- The appliance is not suitable for illuminating household rooms.

1500 W

electric fireplace

FKK 20

Freestanding electric fireplace

- white MDF furniture panel
 - **adjustable brightness**, independently useable realistic LED flame effect with river pebbles
 - 2 heating stages: 1000 W / 2000 W
 - **electronic thermostat**
 - **weekly program**
 - **adaptive switch on control**
 - automatic switch off in case of overheating
 - all functions are remote-controllable
 - **top blow out point**
 - dimensions: 79 x 78 x 26 cm
- The appliance is not suitable for illuminating household rooms.

2000 W

FKK 02

Panoramic electric fireplace

- adjustable brightness, independently useable realistic flame effect
 - **2 x 25 W candle light bulb**
 - 2 heating stages: 900 W / 1800 W
 - mechanic thermostat
 - automatic switch off in case of overheating
 - **bottom blow out point**
 - dimensions: 59,5 x 64 x 29 cm
- The appliance is not suitable for illuminating household rooms.

1800 W

FKK 15

Electric fireplace

- independently switchable realistic LED flame effect
 - 2 heating stages: 1000 W / 2000 W
 - **mechanic thermostat**
 - automatic switch off in case of overheating
 - **bottom blow out point**
 - dimensions: 39,5 x 56,5 x 23 cm
- The appliance is not suitable for illuminating household rooms.

2000 W

electric fireplace, lantern

NEW

LTN 12 FP

Fireplace-shaped lantern

- plastic design
- **realistic flame effect**
- can be switched on/off
- power supply: **3 x 1,5 V (C) batteries**, not included
- dimensions: 30,5 x 35,5 x 16 cm

No heating function, only light effect!

INSTALLATION SUGGESTIONS

FKK 16

Electric wall-mounted fireplace

- **tempered glass front panel**
 - individually switchable flame effect with adjustable brightness
 - 2 heating stages: 1000 W / 2000 W
 - **electronic thermostat**
 - **weekly program**
 - **adaptive switch on control**
 - automatic switch off in case of overheating
 - all functions are remote-controllable
 - **top blow out point**
 - dimensions: 88,5 x 56 x 13,5 cm
- The appliance is not suitable for illuminating household rooms.

2000 W

FKK 2100

Electric wall-mounted fireplace

- **tempered glass / wood / plastic front panel**
 - adjustable brightness, independently useable realistic LED flame effect
 - 2 heating stages: 1000 W / 2000 W
 - **electronic thermostat**
 - **weekly program**
 - **adaptive switch on control**
 - automatic switch off in case of overheating
 - all functions are remote-controllable
 - **top blow out point**
 - dimensions: 90 x 56 x 11 cm
- The appliance is not suitable for illuminating household rooms.

2000 W

FKK 3000 WIFI

Smart wall-mounted fireplace

With smartphone application, you can control the heater at your home Wi-fi environment from far. (**over iOS 9.0 and Android 4.1**)

- **tempered glass front panel**
 - adjustable-colored flame effect, can also be used independently, LED flame effect
 - 2 heating stages: 1000 W / 2000 W
 - **electronic thermostat**
 - **weekly program**
 - **window opening detection**
 - automatic switch off in case of overheating
 - controllable with remote control or smartphone
 - **top blow out point**
 - dimensions: 100 x 50 x 13,5 cm
- The appliance is not suitable for illuminating household rooms.

FK 11

Ceramic heater

- 2 heating stages: 750 W / 1500 W
- mechanical thermostat
- **switchable oscillation**
- automatic switch off in case of overheating or tipping over
- dimensions: 20 x 29 x 16 cm

1500 W

FK 232

Quartz tube heater

- 2 heating stages: 450 W / 900 W
- **independently switchable heating inserts**
- switchable oscillation
- **automatic switch off in case of tipping over**
- type of heating insert: FK 232/T (345 mm, 450 W)
- dimensions: 30 x 70 x 30 cm

900 W

FK 23

Halogen heater

- 3 heating stages: 400 W / 800 W / 1200 W
- **independently switchable heating inserts**
- switchable oscillation
- **automatic switch off in case of tipping over**
- type of heating insert: FK 23/T (163 mm, 400 W)
- dimensions: 30 x 70 x 30 cm

1200 W

FK 21

Halogen heater

- 3 heating stages: 400 W / 800 W / 1200 W
- **independently switchable heating inserts**
- switchable oscillation
- **automatic switch off in case of tipping over**
- type of heating insert: FK 21/T (195 mm, 400 W)
- dimensions: 36 x 52 x 26 cm

1200 W

FKM 450

Heater, frost guard

- 450 W output
- functions: **heating, defrosting**
- mechanical thermostat
- heating indicator light
- **automatic switch off in case of overheating**
- dimensions: 30 x 28,5 x 18 cm

450 W

Heating element

type	recommended for which of our products	dimensions	output
FK 15/T	for FK 15	25 cm	400 W
FK 21/T	for FK 21	19,5 cm	400 W
FK 23/T	for FK 23	16,3 cm	400 W
FK 232/T	for FK 232	34,5 cm	450 W
FK 24/T	for FK 24	42 cm	600 W, IPX4
FKT 22CM	for FK 16	22 cm	400 W
FKT 24CM	for FK 6/K	24 cm	400 W
FKT 42CM	for FK 2 and FK 22	42 cm	600 W
FKT 44CM		44 cm	600 W

FK 1 PRO

Portable fan heater

- heating stages: 1000 W / 2000 W
- mechanical thermostat
- **automatic switch off in case of overheating or tipping over**
- dimensions: 22 x 23 x 14 cm

2000 W

FK 1/O

Fan heater

- 2 heating stages: 1000 W / 2000 W
- mechanical thermostat
- switchable oscillation
- **automatic switch off in case of overheating**
- dimensions: 22 x 30 x 18 cm

2000 W

FK 1

Fan heater

- 2 heating stages: 1000 W / 2000 W
- mechanical thermostat
- **automatic switch off in case of overheating or tipping over**
- dimensions: 21 x 26,5 x 11 cm

2000 W

FK 37/GY

Fan heater

- 2 heating stages: 1000 W / 2000 W
- mechanical thermostat
- **automatic switch off in case of overheating or tipping over**
- dimensions: 26 x 24 x 13 cm

2000 W

fan heater

FKI 90

Industrial, fan heater

- 2 heating stages: 4500 W / 9000 W
- mechanical thermostat
- **IPX4 protection against splashing water**
- automatic switch off in case of overheating
- **power supply: 400 V~ / 50 Hz**
- dimensions: 35 x 51 x 37 cm

The power cable is not included.

9000 W

NEW

NEW

FKI 50

Industrial, fan heater

- 2 heating stages: 2500 W / 5000 W
- mechanical thermostat
- **IPX4 protection against splashing water**
- automatic switch off in case of overheating
- **power supply: 400 V~ / 50 Hz**
- dimensions: 29 x 47 x 33 cm

The power cable is not included.

5000 W

FKI 30

Industrial, fan heater

- 2 heating stages: 1500 W / 3000 W
- mechanical thermostat
- **IPX4 protection against splashing water**
- automatic switch off in case of overheating
- **power supply: 230 V~ / 50 Hz**
- dimensions: 29,5 x 47,5 x 30 cm

NEW

3000 W

FK 30

Portable fan heater

- 2 heating stages: 1000 W / 2000 W
- mechanical thermostat
- **durable metal housing**
- automatic switch off in case of overheating
- **safe PTC heating element**
- dimensions: 18 x 18,5 x 19 cm

2000 W

FK 31

Portable fan heater

- 2 heating stages: 1000 W / 2000 W
- mechanical thermostat
- **durable metal housing**
- automatic switch off in case of overheating
- **IPX4 protection against splashing water**
- dimensions: 19,5 x 31 x 22,5 cm

2000 W

industrial heater, fan heater

FTW 1

Heated, electric clothes dryer

- 220 W output
- **IPX1 protection against vertically dripping water**
- automatic switch off in case of overheating
- dimensions: completely opened: 53 x 95 x 145 cm
folded: 53 x 6 x 112 cm

220 W

FTW 2

Heated, electric towel dryer

- 100 W output
- 6 towel dryer rods
- **freestanding or wall-mountable design**
- **IPX1 protection against vertically dripping water**
- automatic switch off in case of overheating
- dimensions: wall-mounted: 54 x 86 x 10,2 cm
standing: 54 x 91 x 35,3 cm

WALL-MOUNTABLE

100 W

FTW 4

Heated, electric towel dryer

- 90 W output
- 5 towel dryer rods
- **wall-mountable design**
- **IPX1 protection against vertically dripping water**
- automatic switch off in case of overheating
- dimensions: 60 x 44,5 x 9,5 cm

90 W

NEW

HG CF 02

Electric shoe dryer

- only 8 W output
- gentle drying for all types of shoes
- dimensions: 135 cm full length

8 W

HG CF 04

Fan-operated shoe dryer

- 350 W output
- **4 shoe dryer tubes**
- switch off timing
- automatic switch off in case of overheating
- dimensions: appliance: 24 x 23,5 x 10 cm
tubes: 34-66 x 6 cm

350 W

FHP 820

Ash cleaner

- 800 W output
- 20 liter metal bin
- washable filter (FHP 820/S)
- tube: Ø3,3 x 100 cm
- **also with blowing function**
- dimensions: 36 x 36 x 44 cm

800 W

FHP 820/G

Tube for FHP 820 ash cleaner

FHP 820/S

Washable filter for FHP 820 ash cleaner

shoe dryer, ash cleaner

IN 26146

Standing heater

- Silverline Greener Patio Heater 1200 TW Digital IPX4™
- 2 heating stages: 600 W / 1200 W
 - controllable with touch buttons or remote control
 - **two-type heating system, halogen and carbon fiber**
 - S-WaBE™ halogen and C-WAVE™ carbon fiber technology
 - switchable oscillation
 - switch off timing
 - **IPX4 protection against splashing water**
 - size: 87 cm high

1200 W

FK 27

Halogen outdoor heater

- 2 heating stages: 1500 W / 3000 W
- ideal for heating terrace
- **stainless stand**
- **IPX4 protection against splashing water**
- automatic switch off in case of tipping over
- dimensions: 60 x 190 x 46 cm

3000 W

IN 26106

Wall-mountable heater

- Silverline Greener Patio Heater 1200 Wall IPX4™
- 2 heating stages: 600 W / 1200 W
 - cord switch
 - **C-WAVE carbon fiber technology**
 - **IPX4 protection against splashing water**
 - size: 75 cm wide

1200 W

FK 24

Quartz tube heater

- 2 heating stages: 600 W / 1200 W
- ideal for heating bathroom
- robust metal housing
- adjustable tilt angle
- **IPX4 protection against splashing water**
- **wall-mountable design**
- type of heating element: FK 24/T (420 mm, 600 W, IPX4)
- dimensions: 53,5 x 13 x 11 cm

1200 W

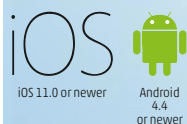

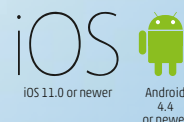

wall-mountable heater, quartz tube heater

Y6H910RW4055

T6R Wi-Fi smart thermostat with wireless connection

- Simple handling - On the **touch screen interface** you can schedule, modify and overrule the set temperature easier.
- If necessary, the screen can be locked.
- **Remote access - From smart device you can remote your heating system from anywhere.**
- Geofencing function - The intelligent TR6 smart thermostat knows, when are you out of the house, and thus saves energy.
- It also knows when you turn at the next corner- and provides, that your home waits you with perfect temperature, when you arrive home.
- The freedom of choice - The pre-configured and individual time programs supply numerous choice options: among others freedom mode, as well as time and temperature based combined control to every days of the week or with 5+2 day weekday-weekend individual time program, within what **one day can even be divided to 6 different switching periods.**
- Saving on energy costs - Thanks to the optimization function, the thermostat and the boiler can work more efficiently, thus reducing overhead costs.
- With table holder.
- power supply: 230 V~ / 50 Hz
- dimensions: 10,5 x 11 x 7 cm

Y6H810WF1034

T6 Wi-Fi smart thermostat with wireless connection

- Simple handling - On the touch screen interface you can schedule, modify and overrule the set temperature easier.
- If necessary, the screen can be locked.
- **Remote access - From smart device you can remote your heating system from anywhere.**
- Geofencing function - The intelligent T6 smart thermostat knows, when are you out of the house, and thus saves energy.
- It also knows when you turn at the next corner- and provides, that your home waits you with perfect temperature, when you arrive home.
- The freedom of choice - **The pre-configured and individual time programs** supply numerous choice options: among others freedom mode, as well as time and temperature based combined control to every days of the week or with 5+2 day weekday-weekend individual time program, within what one day can even be divided to 6 different switching periods.
- Saving on energy costs - Thanks to the **optimization function**, the thermostat and the boiler can work more efficiently, thus reducing overhead costs.
- With wall-mounting frame.
- power supply: 230 V~ / 50 Hz
- dimensions: 10 x 10 x 3 cm

CMT707A1011 Room thermostat, programmable

- 7-day programming
- **max. daily 4 appointments and temperature fixing**
- LCD display with backlight
- **automatic winter/summer time-calculation changing**
- built-in memory for the programs
- extra functions: vacation, party, day off, cooling control
- built-in frost protection setting (5 C)
- switch relay: 24...230 V / 10 A res / 3 A ind.
- power supply; thermostat unit: 2 x 1,5 V (AA) batteries, included
- power supply; switch unit: 230 V / 50 Hz

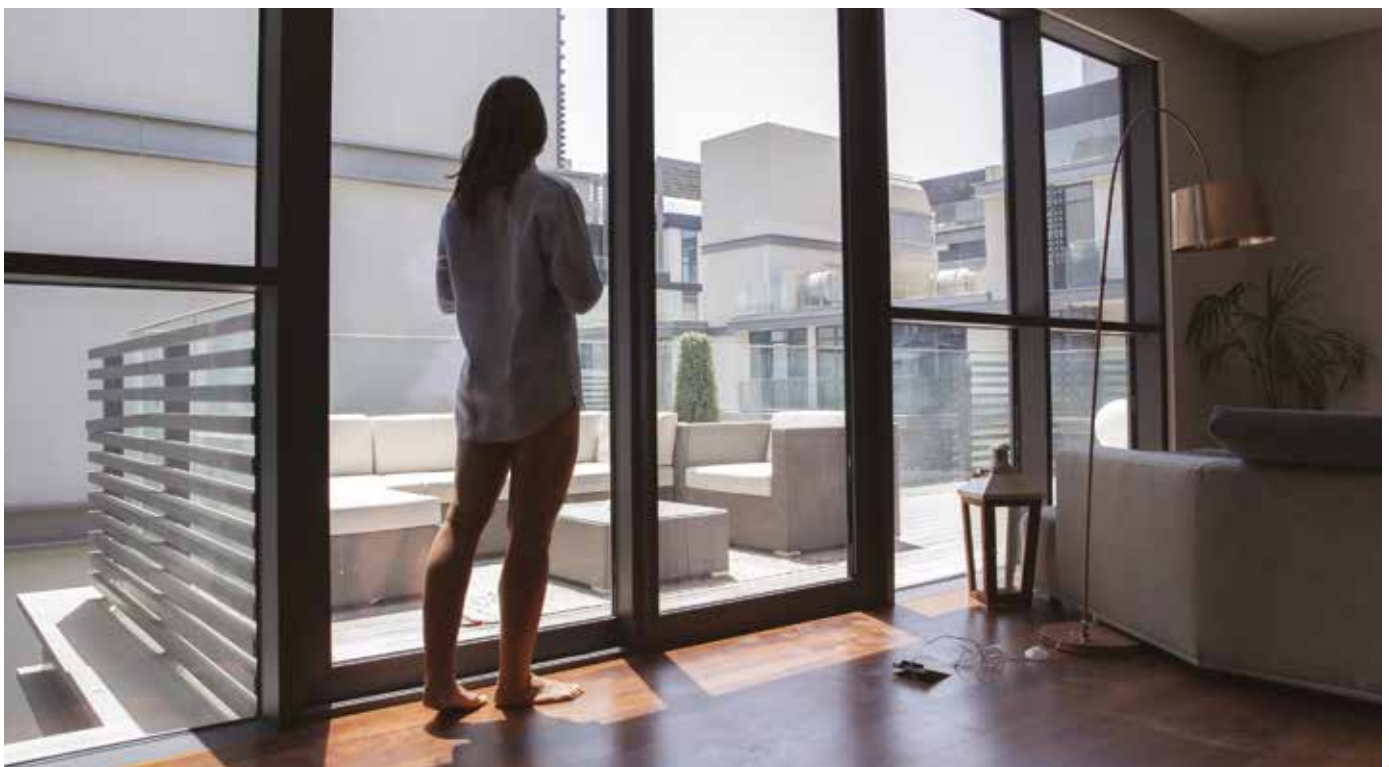

DT90A1008 Digital room thermostat

- **heating/cooling shift operation is possible**
- 5 °C ... 35 °C set point range in 0,5 °C steps
- advanced self-learning control: adapts to the environment and ensures accurate temperature control
- self-diagnosis of sensor failure
- for 2-wire installation
- 8 A resistive, 3 A inductive load capacity
- wall or knitting box mounting is possible
- with low battery warning
- power supply: 2 AA (LR6) alkali batteries, included
- dimensions: 90 x 90 x 28 mm

T6360A1079 Mechanical room thermostat

- temperature setpoint period: 10 ... 30 °C
- fix capacity hysteresis: 1 °C
- temperature element: gas filled
- **heating/cooling usage**
- power supply: 230 V~ / 50 Hz
- dimensions: 83 x 83 x 40 mm

XC100D-HU-A Carbon monoxide emergency alarm

- complies with EN 50291-1 standard
- electrochemical sensor
- alarm memory, event logging
- low gas concentration measurement mode: CO sensor test!
- end of lifetime display
- self-check: every 60 minutes
- **can even be installed to bathroom (IP44)**
- built-in accumulator: 3 V, lithium
- operating temperature: -10 °C- +45 °C
- allowed humidity: 25-95%
- **lifetime and warranty: 10 years**
- LED status indicators: power supply, error, ventilation
- large alert message
- informative LCD display
- **with the help of Honeywell Home application, picking the logged alarm and error events, as well as the general status and forwarding them to a smart device**
- dimensions: 100 x 72 x 36 mm

XC100-HU-A Carbon monoxide emergency alarm

- complies with EN 50291-1 standard
- electrochemical sensor
- alarm memory, event logging
- low gas concentration measurement mode: CO sensor test!
- end of lifetime display
- self-check: every 60 minutes
- **can even be installed to bathroom (IP44)**
- built-in accumulator: 3 V, lithium
- operating temperature: -10 °C- +45 °C
- allowed humidity: 25-95%
- **lifetime and warranty: 10 years**
- LED status indicators: power supply, error, ventilation
- large alert message
- informative LCD display
- **with the help of Honeywell Home application, picking the logged alarm and error events, as well as the general status and forwarding them to a smart device**
- dimensions: 100 x 72 x 36 mm

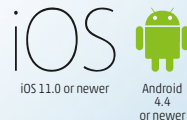

carbon monoxide emergency alarm

XC70-HU-A Carbon monoxide emergency alarm

- complies with EN 50291-1 standard
- electrochemical sensor
- alarm memory, event logging
- low gas concentration measurement mode: CO sensor test!
- end of lifetime display
- self-check: every 60 minutes
- **can even be installed to bathroom (IP44)**
- built-in accumulator: 3 V, lithium
- operating temperature: -10 °C- +45 °C
- allowed humidity: 25-95%
- **lifetime and warranty: 7 years**
- LED status indicators: power supply, error, ventilation
- large alert message
- informative LCD display
- **with the help of Honeywell Home application, picking the logged alarm and error events, as well as the general status and forwarding them to a smart device**
- dimensions: 100 x 72 x 36 mm

XH100-HU-A Fire detector - thermal speed detector

- **thermal speed sensor** to the kitchen **for less fake alarm**
- high reliability
- easy installation
- protected against unauthorized dismounting
- volume of the alarm: >85 dB
- check-function
- power supply: built-in long lifetime lithium battery, 3 V, not replaceable
- **with the help of application, collecting the logged alarm and error events, general device status, and forwarding them to smart device**
- size: Ø116 x 42 mm

XS100T-HU-A Combined heat and smoke detector

- with optical smoke and heat detector for **faster reaction** and **less fake alarm** • for escape routes, bedrooms and dayrooms • high reliability • **easy installation** • **protected against unauthorized dismounting** • volume of alarm: >85 dB • check-function • power supply: built-in long lifetime lithium battery, 3 V, not replaceable
- size: Ø116 x 42 mm

XS100-HU-A Smoke detector

- with optical smoke detector • for escape routes, bedrooms and dayrooms • **high reliability** • easy installation • **protected against unauthorized dismounting** • volume of alarm: >85 dB • check-function • power supply: built-in long lifetime lithium battery, 3 V, not replaceable
- size: Ø116 x 42 mm

With the help of Honeywell Home application, collecting the logged alarm and error events, general device status, and forwarding them to a smart device.

SMO 01 Smoke detector

- **high level reliability**
- powerful 85 dB(A) siren
- **mute function**
- LED status indication
- easy installation
- power supply: 1 x 9 V (6F22) battery, included
- size: Ø101 x 34 mm

fire detector, heat and smoke detector
